

Least Profitable Clinic by Margin

Newtown (NSW) is the least profitable clinic, with a margin of just **34.31%** — nearly 7 percentage points below the next worst performer (Parramatta at 41.21%) and less than half the margin of the top clinic, Liverpool (70.23%).

34.31% Margin % — Newtown (lowest)	\$99,662 Total Margin — Newtown	\$190,810 Direct Cost — Newtown (65.7% of revenue)
--	---	--

Newtown's **direct costs are disproportionately high** relative to its revenue — at \$190.8K against \$290.5K in revenue, it has the worst cost-to-revenue ratio of all six clinics. Notably, all other clinics carry similar direct cost levels (~\$190–195K), but Newtown generates significantly less revenue, which is the primary driver of its compressed margin.
