

Podiatry is the most profitable discipline by total revenue

Podiatry leads all disciplines with **\$742K in total revenue** and **\$424K in gross margin** — the highest absolute profit of any discipline. It is followed by Physiotherapy (\$644K revenue, \$344K margin) and Exercise Physiology (\$497K revenue, \$304K margin).

\$742K Podiatry — Total Revenue	\$424K Podiatry — Total Margin	57.1% Podiatry — Margin %
---	--	---

However, if profitability is measured by **margin rate** rather than absolute dollars, **Exercise Physiology** is the most efficient discipline at **61.2% margin**, followed closely by Dietetics at 60.2%. Podiatry's margin rate of 57.1% is actually the lowest among all five disciplines — it wins on volume, not efficiency.

Here is the full breakdown across all disciplines: [avanti_dev.gold.fct_appointment](#)

	^B _C discipline	1.2 total_revenue	1.2 total_direct_cost	1.2 total_margin
1	Podiatry	742,202.43	318,560	423,642.43
2	Physiotherapy	644,395.09	299,938.75	344,456.34
3	Exercise Physiology	497,291.7	193,050	304,241.7
4	Occupational Therapy	401,508.78	184,207	217,301.78
5	Dietetics	396,378.77	157,706.5	238,672.27
